

Brownfields 2021 Assessment Grant Fact Sheet Greenville, MS

EPA Brownfields Program

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. The Small Business Liability Relief and Brownfields Revitalization Act of 2002, as amended by the Brownfields Utilization, Investment and Local Development Act of 2018, was passed to help states and communities around the country clean up and revitalize brownfield sites. Under this law, EPA provides financial assistance to eligible applicants through five competitive grant programs: Multipurpose Grants, Assessment Grants, Revolving Loan Fund Grants, Cleanup Grants, and Environmental Workforce Development and Job Training Grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

Assessment Grant

\$300,000

EPA has selected the City of Greenville for a Brownfields Assessment Grant. Community-wide grant funds will be used to update the brownfield site inventory and conduct 10 Phase I and five Phase II environmental site assessments. Grant funds also will be used to develop five cleanup plans and support community outreach activities. Assessment activities will focus on downtown Greenville. Priority sites include a six-acre site that formerly housed an automobile repair garage, a gas station, and a warehouse facility; and a corridor containing five blighted former gas stations.
